

PUMP RENTALS

Whatever the challenge, we have the solution.

At Pump Apps, we rent our own equipment to ensure that your liquids keep flowing and production lines keep moving. You benefit from our deep knowledge of the product and its applications. By partnering with Pump Apps, you can rent best-in-class pumping equipment, without any capital expenses and purchasing delays. Plus, you gain access to our skilled product experts, service and support to keep your operations running.

Benefits

- Pay only for the equipment and services you need, when you need it.
- 24/7 delivery and service
- Focus on your core business, while we take care of your liquid transfer needs
- Rent with us, while you scale up your existing pumping system
- Minimise costs

Our line of portable, diesel-driven or trailer-mounted pumps are the most efficient on the market. Pump Apps also rents a full line of totally portable centrifugal and submersible pumps.

Pump Apps rental pumps are ready to go to work on your important project. Our customers appreciate the outstanding performance of our product line and competitive pricing. Whether you are involved with construction or mine dewatering, pipeline bypass, water transfer and supply, or an emergency response, we have pumps and expertise available.
